

Patients Covered by Medicaid Insurance

FirstCare Medical Centers, LLC. will bill Alaska Medicaid for all Medicaid covered services that you received today.

If you receive any services today that are Non-Covered Medicaid Services, you will be expected to pay for those services upon checking out.

Any medications dispensed from FirstCare Medical Centers, LLC. will need to be paid for in full upon checking out.

A \$3.00 co-pay is expected, however, treatment will not be denied if you do not have your co-pay today. Please note that if you do not pay your co-pay today, it will be part of your patient balance. Unpaid patient balances 90 days past due will be assigned to our collection agency Mattson Investigations.

I have read and understand the above information.
