

Patients Covered by Medicaid Insurance

First Care Medical Centers, LLC will bill Alaska Medicaid for all Medicaid covered services that you receive from our clinic.

If you receive any services that are Non-Covered Medicaid Services, you will be expected to pay for those services in full upon checking out.

All medications dispensed and orthopedic supplies received from First Care Medical Centers, LLC are not covered by Alaska Medicaid and will need to be paid for in full upon checking out.

Adults 18 and over will be asked to pay their \$3.00 co-pay at the time of service, however, treatment will not be denied if you do not have your co-pay at the time of service. Please note that if you do not pay your co-pay, it will be part of your outstanding balance due. Unpaid balances 90 days past due will be assigned to Cornerstone Collections our collection agency.

I have read and understand the above information.
